

Title:

**Easy Coding for Chiropractic**

Presenter Name:

Evan Gwilliam, DC MBA QCC CPC CCPC CPMA CPCO AAPC Fellow

Total Hours:

2 or 4 or 6 (mix and match outline)

Course Topic:

Documentation and coding

Course Description:

Coding and billing doesn't have to be hard. Join Dr. Gwilliam, Senior Vice president for Practisync, certified coder and auditor, as he breaks down the most common CPT and ICD-10 codes used in chiropractic offices. Learn to avoid mistakes that cost you money and keep you too busy to take care of patients. With a thorough understanding of what you need to do to remain compliant you will be able to rest well at night and minimize your practice-related anxiety.

3 objectives:

- Learn to apply ICD-10 guidelines to the top codes in a chiropractic setting
- Find out what the payers say is necessary for the top CPT codes for chiropractic
- Master therapy codes, modality codes, CMT codes, E/M codes, radiology codes, and even modifiers

Hour-by-hour outline:

- Hour 1: Master ICD-10 rules
- Hour 2: Document diagnoses like an auditor
- Hour 3: Learn the current E/M rules
- Hour 4: Master the chiropractic manipulative treatment codes
- Hour 5: Know when to use which modifiers
- Hour 6: Become proficient with the most common therapy codes
