

Title: Demystifying the world of Coding and Medicare

Description:

Have you ever felt like your head was spinning when people talk to you about Medicare, Documentation and Coding???? You are not alone I assure you! This four hour class is specifically designed for the staff and doctors alike and is guaranteed to help clarify all of the mysteries of dealing with insurance companies including Medicare. There is no product to buy or software to use, just plain old English with a lot of purpose behind it. It is time we fall back in love with the mission and stop being afraid of compliance and audits. We can enjoy what we do for a living and still be protected. It will be a party I assure you!

Outline:

- | | |
|-------------|---|
